

We are pleased to offer our new stand-alone milkshake dispenser that is an exclusive machine designed and built in the UK by the Milk Station Company. It holds up to 8 different flavours at one time and has been developed to provide a secure, hygienic dispenser to enhance milk sales. Importantly there is no danger of contamination or taint for normal milk sales-something that can really put off your regular milk customers.

Adjustable volumes for syrup can be dispensed, retractable cover for nozzle for absolute hygiene

8-flavour syrup station or 18-flavour syrup station. Each flavour can be 5ltr container

4-6 weeks from point of order

After each dispense, the nozzle is cleaned to avoid cross-contamination. The length of cleaning time can be programmed.

There is a waste container inside the machine, along with a water container to allow the after-dispensing cleaning. Full cleaning of the pipes should be completed everytime a syrup canister is changed.

Simple coin acceptor
Payter contactless terminal

Requires only a single 13amp power supply for operation.

Choice of side for ear for payment options.
