

We are pleased to offer our new stand-alone milkshake dispenser that is an exclusive machine designed and built in the UK by the Milk Station Company. It holds up to 18 different flavours at one time and has been developed to provide a secure, hygienic dispenser to enhance milk sales. Importantly there is no danger of contamination or taint for normal milk sales-something that can really put off your regular milk customers.

Adjustable volumes for syrup can be dispensed,

8-flavour syrup station or
18-flavour syrup station. Each
flavour can be 5ltr container

4-6 weeks from point of order

Simple coin acceptor
Payter contactless terminal

Requires only a single 13amp
power supply for operation.

Choice of location for payment
options.
Add your own content on
the screen

After each dispense, the nozzle is
cleaned to avoid cross-contamination.
The length of cleaning time can be
programmed.

There is a waste container inside
the machine, along with a water
container to allow the after-dispensing
cleaning. Full cleaning of the pipes
should be completed everytime a
syrup canister is changed.

Add a vinyl wrap to
make it your own
and fit your business
branding and style
